

# **STRONGER THAN THAT**

**We are stronger than that, we are kinder than that**

**We are moving forward, we are not going back**

**We are stronger than that, we are kinder than that**

**Love is stronger than that**

When the storm is rolling in and our hopes start to fade

That's when we rise as one, our spirits like a blade

We are many, we are mighty, and even when we are afraid

We are stronger than that

We will not yield to hatred, to lies or to shame

Our power lies in courage, and our love is not tame

If the lights go out on justice, we will light a flame

'Cause we are stronger than that

To every one that's turned away, we open up our town

If fear can build a wall, then love can tear it down

Then we'll build a bigger table for all to gather round

'Cause we are stronger than that
